

Luke Eckersley

Data Analyst

About Me

Hello! I'm Luke Eckersley. I am passionate about computer science, data and new technologies. I am beginning my **data analyst** journey and love expanding my skill set. I am a fast learner and a team player that gets the job done.

I enjoy logical problems and a good challenge!

Work Experience

○ Data Scientist/Software Engineer at DataAnnotation

April, 2024 - Present

Aid in the training of LLMs on Data and Computer Science related problems.

○ Porter at Michael's Toyota of Bellevue, USA

August, 2018 - August, 2022

Close work with mechanics and advisors to ensure that cars are delivered to customers clean and on time as well as greeting customers and checking them into their appointments/setting up future appointments.

○ Starbucks Barista at Safeway, USA

April, 2017 - August, 2018

Worked behind Starbucks counter serving food and making beverages. Had a few regular customers that preferred me to make their favourite beverage. Also spent some time behind regular checkouts.

○ Shift Lead at Simmo's Ice Creamery, Australia

April, 2015 - November, 2015

Worked leading a team serving food and beverages and occasional work in the factory producing ice cream.

Education

○ Certificates from Udemy.com

2023 - Present

AI and Machine Learning, Data Science Bootcamp (in progress)

[C++ Programming](#)

[One Week Python](#) - Took this course to help with a university class.

○ Bachelor of Science from University of Washington

2020 - 2023

Comprehensive Physics with minor in Mathematics. CeDiploma [here](#).

○ High School from McKillop Catholic College

1995 - 2015

Achieved an ATAR of 91.3 and awards for Physics and Mathematics.
